

Wind

## Quick Stop

### Procedure:

1) Person falls in water!

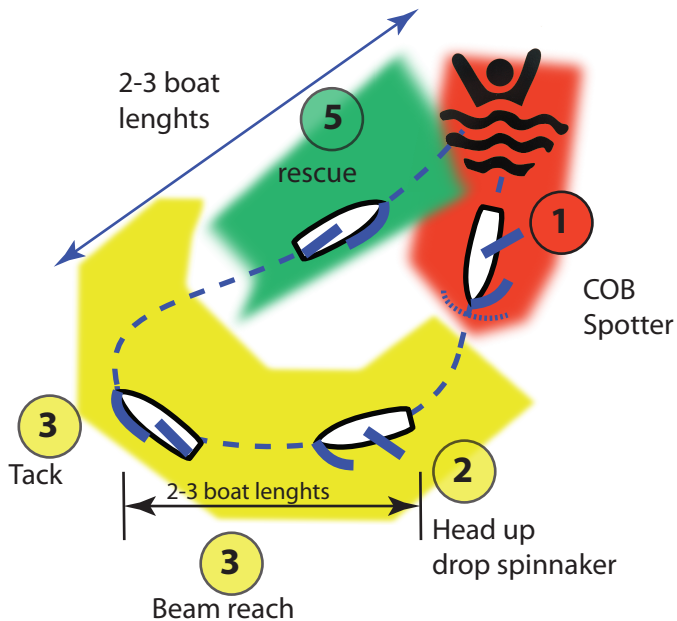

- Alert everyone on the boat, shout, yell, "**C.O.B.!!**"
- **Litter** the water, with: COB pole, throwable PFD's, other things that float.
- Designate a **Spotter**. Always keep eye on person, and point in direction of COB.

2) Change course to beam reach (drop spinnaker)

3) (Raise jib) Maintain beam reach for 2-3 boat lengths.

4) Tack, and head towards PIW on close reach.

5) As approaching PIW, slow boat, ease all sails, and rescue PIW. (refer to rescue section)
